EASY READING Bob - Bob Book series

Bob Books are designed to be the first books your child can read. This is the place to start when your child recognizes several letters of the alphabet. Vowels can be easily sounded out (decoded) and the books contain mostly three-letter words in simple sentences. Set 1 (short vowel sounds) is the first and easiest in the series. The books progress in reading difficulty up to set 5 (long vowel sounds). The series also includes themed books for phonics, sight words, animal stories, and other topics.

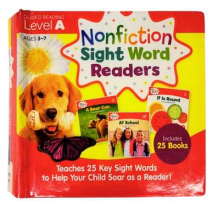

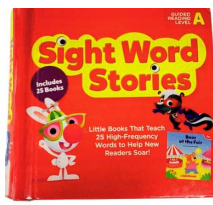

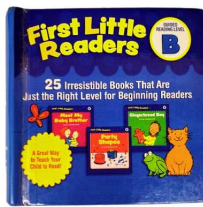

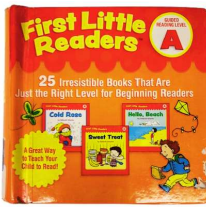

EASY READING Ziefert - flip-a WORD series

The *flip-a WORD* series uses phonics to teach word recognition with rhyming patterns. Pages have bright, bold colors and pictures, a big font for recognizing letters, and short sentences. Children flip pages to create new words and the new words are presented in a sentence every few pages. There are multiple books in this series.

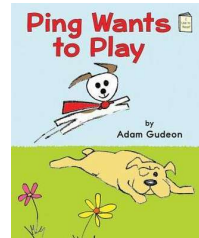

EASY READING Seuss Dr. Seuss - Hop on Pop

This Dr. Seuss book focuses on basic phonics concepts through short, fun poems that build on similar-sounding words to build confidence and reinforce reading skills.

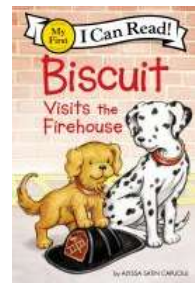

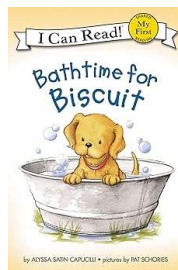

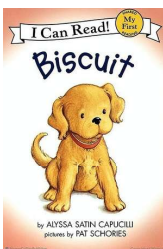

EASY READING Scholastic - *First Little Readers, Sight Word Stories, and Sight Word Readers*

These smaller format books from Scholastic have 25 very short stories, bound together by a guided reading level (Fountas&Pinnell). All of the stories contain easy to read words with short sentences and lots of picture clues to help figure out a word. There are three level A books (easiest to read) and one level B *First Little Readers* which is a step up in difficulty.

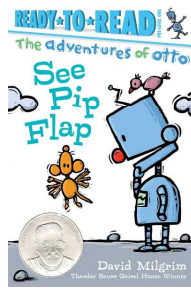

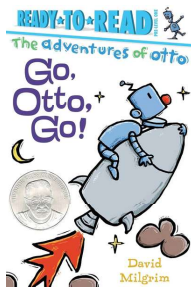

EASY READING (various authors) - *I Like to Read series*

These larger format books from the I Like to Read series have more complex words and phonics but still have a large font, short sentences, and only one to two sentences per page. You can spot these books in the Early Reader collection by their picture book size. The guided reading levels of these books range from C to G, increasing in difficulty, and are listed either in the front or back of the books.

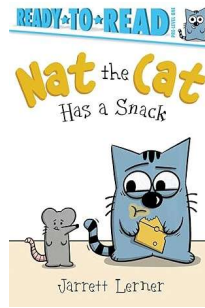

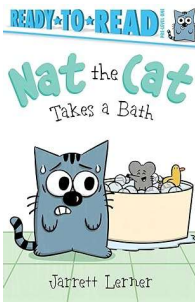

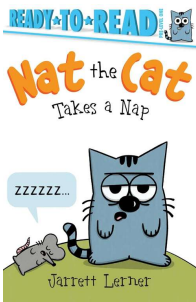

EASY READING Capucilli - *Biscuit series*

The *Biscuit* series is a good introduction to reading with easy words and short sentences. Sight words are intermixed with easy to decode words and the illustrations help identify what your child is reading. There are multiple books in this series.

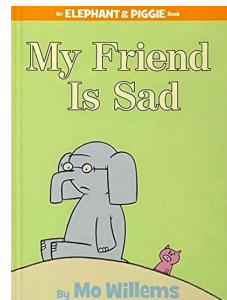

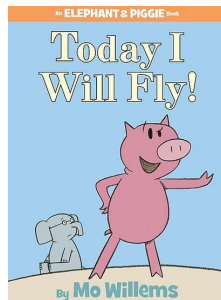

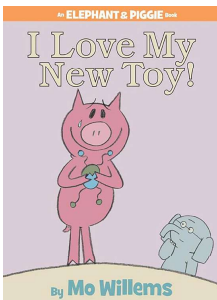

EASY READING Milgrim - The Adventures of Otto series

This award winning series builds confidence in readers with short, simple sentences combined with words that can be easily sounded out, and only a few complex words in each book. There are multiple books in this series.

EASY READING Lerner - Nat the Cat series

The *Nat the Cat* series uses word repetition and short sentences, with a mixed graphic style. Words are easy to decode and the pictures and story make it fun to read. There are multiple books in this series.

EASY READING Willems - Piggie and Elephant series

Piggie and Elephant books are high interest books with simple sentence structure and words printed in a graphic style. These books are fun, humorous, and always popular with kids. There are many books in this series.
